

# VAISHNAV S

| Web Developer | UI/UX Designer | CyberSecurity Enthusiast |

+91 8547612760 | [vaishnavshalikumar49@gmail.com](mailto:vaishnavshalikumar49@gmail.com) | <https://www.linkedin.com/in/1920-vaishnav-s/> | <https://vaishnav-s.vercel.app/>

## Professional Summary

Computer Science Engineering student with hands-on experience building full-stack web applications, AI-powered systems, and cybersecurity projects. Experienced with React, FastAPI, Python, Firebase, and modern web technologies, with a focus on building practical, user-focused applications. Have worked with local LLMs, semantic search, machine learning, and agentic workflows, while developing cybersecurity projects involving phishing detection and threat analysis. Also experienced in UI/UX design and Flutter-based mobile development, with a strong interest in building and experimenting with real-world software.

## Education

### Bachelor of Technology in Computer Science and Engineering

Sree Buddha College of Engineering, Kerala

Sep 2023 – May 2027

### Higher Secondary Education

NSS Higher Secondary, Pandalam

June 2021 – March 2023

## Experience

### UI/UX Designer - The Purple Movement

August 2025 - Present, Remote

- Worked as a UI/UX Designer for Wiki Syllabus, strengthening design skills and cross-team collaboration.
- Designed intuitive and accessible user interfaces using Figma and design thinking principles.

### Secretary - IEEE IAS SBCE

March 2026 - Present, Alappuzha

- Managing IEEE IAS branch activities, fostering innovation and collaboration among student members.
- Led ideation sessions and promoted collaborative learning

### Creative Team Lead - Mulearn SBC

December 2025 - Present, Alappuzha

- Led the creative team in successfully achieving 20+ event ideations.
- Contributed to branding, content creation, and community-driven campaigns.

### Tech Team - TinkerHub SBCE

September 2025 - Present, Alappuzha

- Developed and designed UI components for campus-level platforms.
- Contributed to building user-focused digital solutions for student communities.

### Coding Club - Dept. of CSE, SBCE

November 2024 - Present, Alappuzha

- Actively contributed as a member of the Coding Club of the Department of CSE, Sree Buddha College of Engineering.
- Coordinated ideation sessions and contributed to technical events and community initiatives.

## Projects

### Arcana: AI Powered Phishing and Fraud Detection System

- Built an AI Powered Phishing and Fraud Detection System. Also has a browser extension which blocks suspicious URLs and blocks them.

### Gabriel: Coordinating System for Ambulance, Hospitals and Citizen

- A simple coordinating platform for citizens, ambulances, and hospitals when an accident occurs. Let's people coordinate with each other in saving the life of a victim or patient in distress

### TalentPilot: AI Recruitment Operating System

- A AI-powered report generation platform to automate content creation like generating reports, replacing contents, and producing contents for proposals.

### CareGuru: A Medical AI Assistant

- A healthcare web application with emergency SOS functionality, AI medical chatbot, and OP appointment booking, designed to provide quick and accessible medical support.

### DocuSmith: AI Based report Generator

- A AI-powered report generation platform to automate content creation like generating reports, replacing contents, and producing contents for proposals.

## **OmniMind V2: Local AI Assistant**

- Inspired from GODMODE and Claude AI. An local AI was built for precision and accurate answers. This AI produces answers by multiple AI competing with each other to produce accurate answers.

## **Internships and Training**

---

### **Cybersecurity Intern - PaceLabs**

- Practical exposure to cybersecurity concepts, threat awareness, and secure system practices.

### **Flutter App Developer Internship - Luminar Technolab**

- Hands-on experience in cross-platform app development, UI design, and application logic.

### **CyberHeist Bootcamp - RedTeam Hacker Academy**

- Learned practical concepts in ethical hacking, vulnerability assessment, and basic penetration testing.

### **Intilaq Technologies PVT LTD - Python Developer Intern**

- Gained hands on experience in python full stack development

## **Certifications**

---

### **TechMaghi - Cybersecurity and Ethical Hacking Course**

- Gained strong foundation on cybersecurity and ethical hacking. Gained hands-on experience.

### **IEEE EMBS Pune Chapter Internship**

- Successfully completed IEEE EMBS National Student Internship Program. Gained strong knowledge on ML models

### **Cisco Networking Basics - Cisco Networking Academy**

- Built strong foundational knowledge of networking concepts, protocols, IP addressing, and basic security.

### **Packet Tracer Certification - Cisco Networking Academy**

- Practical experience in network simulation, configuration, and troubleshooting.

### **Fundamentals of Deep Learning - NVIDIA**

- Gained hands-on experience in neural networks, computer vision, and deep learning model development.

## **Achievements**

---

### **ASTRA Hackathon 2026**

- Successfully secured 2<sup>nd</sup> place in ASTRA Hackathon 2026 at CARMEL College of Engineering, Punnapra
- Built ARCANA: AI Powered Active Phishing Detection Engine

### **PRISM Hackathon 2026**

- Secured 2<sup>nd</sup> place in PRISM 2026 at College of Engineering, Aranmula
- Built Aegis: AI Powered Phishing Detection Engine. An improved version of ARCANA

### **BrainHack 2026**

- Secured 3<sup>rd</sup> place in BrainHack 2026 at College of Engineering, Adoor
- Built TalentPilot: An AI powered Resume Analyzer and Interview Question Generator

## **Technical Skills**

---

- **UI/UX:** Figma, Wireframing, Prototyping, Design Thinking, Accessibility
- **Programming Languages:** Python, JavaScript, C, Java, SQL
- **Frontend:** React.js, Vite, Next.js, Tailwind CSS, Framer Motion
- **Backend:** FastAPI, Node.js, Express.js, REST APIs
- **Databases:** Firebase, Firestore, MySQL
- **AI/ML:** OpenAI API, Gemini API, Ollama, LLMs, XGBoost
- **Cybersecurity:** Kali Linux, Burp Suite, Nmap, Wireshark, Network Security, Ethical Hacking
- **Mobile:** Flutter
- **Tools:** Git, GitHub, Postman, Vercel, Render
- **Soft Skills:** Problem Solving, Leadership, Teamwork, Communication, Adaptability
